

# Make a Particle Pollution Collector

Scan for video lesson

1. Cut a collector from the pattern.
2. Cut a window in the middle of the collector.
3. Cover the back of the window with a white sticker.

The sticky side will face up and out.

Hint: Don't touch the sticky part!

4. Punch a hole at the top of the collector.
5. Tie a piece of string or ribbon through the hole at the top.
6. Choose a location and hang up your collector.
7. Wait a few days. Take your collector down.
8. Inspect it with a magnifier.
